BIOCIDAL WALL WASH

CODE: **BWW**

Description: A low toxicity biocide wash developed as a disinfectant for surface preparation prior to painting. Used to kill microbial contamination prior to painting.

Product Benefits: Water based solution. Effective against most common micro-organisms and biofilms found on surfaces.

SURFACE PREPARATION:
Clear surface to be cleaned of all loose dirt and dust.
Use proper protective equipment and apply Wall Wash liberally.
Allow to stand, preferably 24 hours for solution to act.
Wash off and rinse with clean water.
Paint when surface is dry.

GENERAL: Keep away from children. Harmful if swallowed. Use rubber gloves and eye protection. Use head protection where necessary. In case of contact with skin, wash with plenty of clean water.

APPLICATION: Ready for use. Do not dilute. Clean up with water.

TECHNICAL DATA:

SG:	1.00
Viscosity:	Water based solution
Drying Time: (T)	4 hours
Spread rate:	Depending on surface.
Pack Sizes:	750ml, 5L & 25L
Flash Point:	Non-flammable

Health and Safety: Refer to Material Safety Data Sheet
